To whom it may concern

Contracts On-Demand & e-CLOUD Construction

Herewith we gladly recommend Contracts On-Demand and their e-Cloud Construction suite of Services.

As Quantity Surveyors (and Principal Agents at times), we have found:

1. The Services save us a tremendous amount of time – therefore our costs on a project are reduced (on-line completion of contract documentation, effective document management and communication).

2. The CPD-Webinars offer good value for money, they are topical, rich in technical content and well presented by top professionals in the Industry, all from the luxury of your own office.

3. When support is requested, they ensure that the problem is corrected timeously and professionally.

4. Products such as Synergy, have saved us from unscrupulous developers who tried to fraudulently claim damages from us, as the AUDIT trail indicated the flow of events, which was proof that the Developer was in the wrong (documentation saved in the cloud which proved this!).

Please feel free to contact us should you require any further information.

Regards

Martin Cloete
