e-CLOUD Construction™

The Construction suite of Productivity Services

SUBSCRIPTION PRICING

(Prices are exclusive of VAT)

e-CLOUD Construction is a suite of Electronic Services that provides Construction Industry Professionals, with an easy to use, low cost solution, designed to save time and increase productivity in the development and running of Construction Projects. Each participant in a Construction Project can collaborate electronically with one another using the same Services. The suite of Services are provided on the Internet via "cloud computing" technology and comprises of four categories of Services: Principal Services" "Add-on Services" "Associated Services" and "Software-as-a-Service"

The e-CLOUD Construction is available through the Internet on both the e-CLOUD Construction website www.e-cloud.co.za and the Contracts On-Demand Website www.contractsondemand.co.za

[Users of any e-CLOUD Construction Service qualify for PI and All Risk Insurance at reduced Premiums](#)
