TENDERVAULT® SERVICE

This TENDERVAULT Service is one of the Project Services within the e-CLOUD Construction® Suite of Productivity Services. It is available through the Internet via the e-CLOUD Construction website **www.e-cloud.co.za**

The Service allows users to collaborate in the Tendering process. The users being:

Developers, Principal Agents, Principal Consultants, Project Management Professionals, Architectural Professionals, Quantity Surveying Professionals and Engineering Professionals, Contractors, Sub-Contractors and Suppliers.

The TenderVault Service is an extension of the Pro Suite online Tendering Service and provides Tenderers access to Tender Information within a secure electronic 'Project Tender Vault' and then to subsequently submit Tenders, online to this vault.

The TenderVault Service utilises the JBCC Pro Suite Document Access Service.

Invited Tenders

The TENDERVAULT is managed by the Client / Principal Agent / Principal Consultant who is authorised to invite Tenderers, free of charge, by notifying them by e-mail giving access to the Tender Documents and then to submit their Tenders electronically.

Open Tenders

For Open Tenders are catered for.

Benefits of the Service

- Use the Service to call for both Invited and Open Tenders
- Offer and receive Tenders electronically
- Save cost of printing and all costs associated with hard-copy documents
- Save travel and related costs for the delivery and collection of Tender Documents
- Automated immediate notification to Tenderers
- Immediate notification by e-mail to Tenderers of amendments to Tender conditions
- Secure and auditable opening of the Tender Vault on the Tender Date
- Quick and easy submission of Tender Adjudication
